## SSA Web Standards

### SSA Web Standards

Standards and best practices allow us to meet our business goals, reduce development time, and help solve real problems for real people.

[Learn More About Patterns](#)

[Get Our Design Files](#)

#### Responsive

Each of our components is built with a wide range of screen sizes in mind. From small mobile phones to large desktop displays, our adaptive patterns ensures an optimal experience on any screen

#### Touch-Optimized

All of our components are optimized for use with touch screens, providing touch targets and sufficient spacing to avoid accidental taps.

#### Accessible

Each of our components are optimized for screen readers and other technologies that enable users to comprehend and interact easily.

#### User-Tested

All of our components are used each day by millions of Americans. For this reason, each pattern in our library was designed and tested with real users to solve real problems.

#### Reusable

Our pattern library promotes re-usability so your application won't have to reinvent the wheel or expend additional programming resources.

#### Simple

We aim to provide just enough guidance to create an awesome experience. When in doubt, leave it out.

Have a question, suggestion, or comment? Need additional resources? Visit our Help center.
